More about the Network...

Formation

The Ethiopia Mission Network was formed in March of 2004 under the direction of the Ecumenical and Mission Partnership Team and the Area Office for Southern and East Africa of the Worldwide Ministries Division, PCUSA. This network is part of the Presbyterian Church's increasing focus on international mission partnerships that connect presbyteries and congregations in the United States with presbyteries, synods and congregations in other countries. Support and participation by individuals is encouraged, as well as connections with other projects and programs.

Annual Meetings

Relationships. The Ethiopia Mission Network meets annually to share and exchange wisdom and experience. The practice of being face-to-face on a yearly basis helps form mutually beneficial relationships.

Education. As the network gathers, there are opportunities for learning and exchanging of ideas. The presence of Ethiopian partner representatives and Ethiopian mission workers at the meetings aids in the development of richer partnerships. Knowledge and practical experience is shared in a collegial and mutual atmosphere.

Fellowship. "Informal networking" allows time for making connections that can lead to the answering of God's call to mission in new ways.
